SECRET 25X1 25X1 Comment, on 7 August, observed the unloading of an AAA shipment, presumably of the 13th AAA Div, at the Weimar freight 25X1 station and the exchange of AAA units at the Nohra airfield. 25X1 25X1 On 10 August, the elements of the division which had been relieved in Nohra on 7 August and subsequently had entered the Flak Kaserne, were entrained, possibly for Altengrabow. It is possible that troops were relieved at the airfield as early as 4 July however, no pertinent information has been received. 25X1 reported only that, on this date, AAA units left Weimar toward east presumably as a result of a relief at the airfield. 25X1 Source probably confused the data pertaining to the caliber of the AA guns, as 57-mm AA guns have not been definitely observed in East Germany so far. The shipment observed on 10 August is rather safely believed to have involved units of the 498th AAA Regt of the XXIX Gds Mtz Rifle 25X1 25X1 Corps from Kindel 25X1 25X1 On 22 July, a tank unit of the 7th Gds Tank Div possibly left for Comment Letzling Heath. 3. 25X1 Conment. The AAA shipment on 30 July presumably is reported for the 25X1 25X1 on 7 August, loading of an AA first time. 25X1 25X1 machine gun unit at the Cottous railroad station and, on the evening of the same day, an AAA shipment passing through the station. 25X1
